## Major Redman, Union Gvt. Candidate Gets Splendid Reception

Major Redman, Fred Davis,  
A. L. Smith and R. B.  
Bennett Discuss the  
Main Issue

Should Canada Stick or Quit?

If there was any doubt in the minds of the supporters of the Union Government as to what the result would be in this district, that doubt has been completely dispelled by the enthusiastic reception given Major Redman in his initial appearance here on Wednesday evening last and even those who differ in opinion are bound to admit that as far as Strathmore is concerned, he

chances of the N.P.-Lib.-Lab. cause are exceedingly slim.

All searing accommodation in the Opera House was filled when W. E. Brown, chairman for the evening, appeared on the platform accompanied by Fred Davis, MPP; Major Redman, A. L. Smith, and R. B. Bennett.

The Chairman, in his usual straight-to-the-point manner, stated the object for which the meeting was held and called upon Fred Davis to address the meeting.

Mt Davis stated this was the first opportunity he had had of personally thanking the electors for the splendid support they had given him. He said that he appreciated very much the support he received from the people of Strathmore and he could assure them he appreciated their efforts very much. He appeared before them that night as a representative of the Union Government. They had been told that the Union Government was the old Conservative Government under a new name. If there had been any suspicion that the Union Government had been formed on the old Conservative lines, he said, "I can assure you we did not think they would have had the support of the leading Liberals."

The present Union Government had done more in the last few weeks than had been done for many years.

The Returned Veterans saw fit to place Major Redman in the field, and he appealed to them to support the Union Candidate (applause).

Major Redman (who was greeted with applause) said the issues before us today were the greatest ever known in the political history of Canada. He said that the secret of the Union Government because he did not believe any other kind of government could successfully manage the affairs of the country at

this time. All of our Allies had adopted the Union Government because they could see the necessity of all the forces joining together for one great objective—the winning of the war. No one party should rule the dominions of the empire. The government should represent all classes and should have the support of the country behind it. One of the greatest evils of party government is the patronage system—had been voted down in the union government. With regard to the problems in Canada, he believed that stringent measures should be taken by the Government in Ottawa to see that the spades and agricultural gear of good quality and a fair remuneration given for the work done. With regard to the conscription of workers he believed that we should gather such wealth and resources as was necessary for the upkeep of the war. He did not believe in the destruction of wealth which produced wealth. Men and resources should go hand in hand. The main issue at the present time,

SHALL CANADA CONTINUE

TO PARTICIPATE IN THE WAR OR QUIT?

The Union Government had pledged themselves to enforce the Military Service Act in order that reinforcements could be kept up. Re-enforcements were needed. What is fair to put a referendum as to whether we should continue the war or not? If the Union Government did not renew its power, it meant that Quebec would rule the country. At the outbreak of war the spirit of Canada was firm and steady. Were we going to start waging a new war? Our men were fighting battles and losing their lives in order that the common cause of humanity might be upheld against Germany. We are asked by those who have gone across, to forget the past and sell out to us that their island is not shed in vain, and to see that the job they started was finished. Canada was an obligation to these men. We had to do more than the world thought Canada. He felt that if the Union Government was returned Canada would do her share in the war. It would do little good to sit idly by and allow another government to be returned to power. We should do all in our power before the 17th to see that no other than a Union Government was returned. One of the issues of the election depended the future and honor of this country. (Loud and prolonged applause).

A. L. Smith said the Union Government was not a new thing in the history of Canada. This was the thirdคร..

the profits had been fixed. All the work had been done to view to augmenting the high cost of living. The idea of Union Government was of grave importance to the people of the Western Provinces. We should be entitled to 72 millions in the house. In the past everything had been done by the solid vote in Quebec. In future, if we accepted Union Government, we would get fair representation. We would not be compelled to ask for our support if we were in favor of continuing the war. The war was the most serious business we had been upon to do. No man did jocundly credit his country with ever got out of the mud except the fact that we were at war. We were living in abnormal times. Men and means were needed to win the war. There were two ways of getting men, by voluntary enlistment, or by conscription. Voluntary enlistment had done much more so in Canada than in any other country in the world. It

was to the eternal credit of the 100,000 men who had gone over to the front that their voluntary enlistment had been met as an absolute refusal. The war policy of the Opposition was a referendum as to whether they should appeal to the Act. There was a great need for money at the front, and in order to meet this, the speaker read a letter from a partner who has given his life at the front regarding the need of men and the following extract was read out: "The speaker's men who shed their blood in order that this great and noble country of ours might take her place amongst the nations of the world came down to us through the centuries. Were we going to listen to their cry and continue in this war, or were we going to act as quitters? That was the question that night was whether we meant to go or not. Some 400,000 of our bravest men had volunteered and had been sent

(Continued on Page 8)

the present time, we should not forget that the country was still at war. When the war was started to voice was raised in the House against Canada entering into it. Sir Wilfrid Laurier and his colleagues pledged themselves to the war until it ended. Canada entered as a nation, not merely because she was part of the British Empire, but because she believed it her duty to support the right. The voices of the fathers—those men who shed their blood in order that this great and noble country of ours might take her place amongst the nations of the world—came down to us through the centuries. Were we going to listen to their cry and continue in this war, or were we going to act as quitters? That was the question that night was whether we meant to go or not. Some 400,000 of our bravest men had volunteered and had been sent

(Continued on Page 8)

## SUPPORT UNION GOVERNMENT

Liberals and Conservatives are United  
The People Must Unite to

## Win the War

A Laurier-Victory means deserting our boys in the trenches for over a year, throwing up our hands and quitting! Don't shout "Kamerad" under the Referendum proposal. Come out and fight for Union Government.

## Make No Mistake

IF LAURIER WINS:

- (1) Canada will send no more reinforcements to the front, which practically means quitting the war and placing the country in the same class as Russia.
- (2) The French-Canadians who have shirked their duty in this war will be the dominating force in the Government of the country.

ARE THE ENGLISH-SPEAKING PEOPLE PREPARED  
TO STAND FOR THAT?

It is because the French-Canadians have not done their duty that Conscription had to be resorted to.

The French-Canadians have made it perfectly clear that they do not like the war and are against Canada participating in it further. Some of them even go to the length of saying that the soldiers should be brought back from the front.

The Nationalists are demanding that the men who have been enrolled under the Military Service Act be disbanded and sent back to their homes. To secure the Nationalist support Laurier-Liberal candidates Quebec have signed the following pledge:

"The undersigned candidate in the Federal Elections, undertaken by these presents, if I am elected, to demand the immediate suspension of the Military Service Act, 1917, and all of its effects until Canadian electors have pronounced by way of plebiscite; and also to demand that the Canadian Government shall accept it as null from its origin and that in consequence all conscripts be disbanded."

"I also undertake to vote against any Government which should refuse to adopt the above enunciated policy."

This advertisement is inserted by The Unionist Party Publicity Committee

**Vote for MAJOR REDMAN  
the Union Candidate**

## Scottish Romance

How Love Triumphed Over the Military Patriarch

Leave of absence from a Scottish camp having been refused him, a lad of nineteen left his quarters in order to meet his girl friend. She was a mile from the station where the prospective bride was waiting when his story was told at Glasgow police station. The lad expressed regret that he could not perform the marriage, but he pointed out that he had been compelled to do so by the circumstances which had inspired their desire for marriage with the court as witness. The Scots have a saying that all the world over was the scum of the *monarchs* to register.

The couple went to the county buildings, where the legal formality of declaration was gone through, and the girl was sent home to the police station to await an escort.

Substitute for Linseed

The sunflower seems destined to play an important part in some life of the United States as a substitute for linseed. A report was made to the Senate Committee of the National Paint and Varnish Association, which declared that the tall sunflowers, which grow to a height of 12 feet, will yield a crop which can be used to yield a cross return to the farmer of from \$30 to \$50 an acre.

## The U. S. Obstructionists

People Who are Putting Profits Before Patriotism

The first-class and second-class mail that comes to our desk contains much complaint. There is much ground for complaint.

Plenty of people are putting profits before patriotism. Some leaders of business are not yet willing to fight out a little private war for their private gain as though representatives of capital are unwilling to abate a lot of their old stiff-neckedness. Some of the most distinguished statesmen are those distinguished statesmen who are the most uncompromising western farmers against the government and against the war.

While there are earnest helpers in congress naturally raise the temperature of patriotic blood. Notorious fact that the most eloquent orators at this time, among them the president and his cabinet in the two years past, are there a few who cannot resist the temptation to have a brick wall.

The ancient battle between haves and have-nots finds abundant opportunity for demagogery on one side of the coin and plenty of selfishness on the other.

Whether it is your habit to view public affairs from the conservative side or from the radical side, either you can find much to complain about.

On the great mass movement has the right direction and velocity. We have caught the stroke. In Wall Street, in the grain markets, in the meat shops and on farms, scores of merchants are in the attitude of hearty, frank, courageous endorsement of government. Broadly, we are going to win.

From the Saturday Evening Post.

## Many New Elevators

Capacity of Co-operative Elevators Is Increasing

During the present year the Saskatchewan Co-operative Elevator Company has erected thirty-one elevators, and will complete six more, which will be completed this fall. The thirty-seven elevators will have a capacity of \$350,000, and will bring the number of elevators in the province considerably above the figure of three hundred.

In Alberta the United Grains Growers, and the Alberta Farmers' Co-operative Elevator Company, will have 145 elevators in operation in the fall. Last year they handled 16,000,000 bushels of grain, and this year, in their third year of operation, an average of 15,000,000 bushels per elevator.

If—Old Peaches and Cream—*The Harold* has been sold to the unknown, we can't afford for you to call me anything but peaches.—Judge.

## RHEUMATISM CURED

In the days of our fathers and grandfathers, rheumatism was the bane of middle life and old age. Almost every elderly person seemed to suffer from it.

Plenty of people are putting profits before patriotism. Some leaders of business are not yet willing to fight out a little private war for their private gain as though representatives of capital are unwilling to abate a lot of their old stiff-neckedness. Some of the most distinguished statesmen are those distinguished statesmen who are the most uncompromising western farmers against the government and against the war.

## Don't Kiss Anybody

Dr. Hastings' Advice to People With Colds

Dr. Hastings, of Toronto, gives the following advice to people affected with colds:

1. Keep away from places where people congregate.

2. Avoid strong coffee, tea, and similar drinks as other people—you shouldn't do so at any time.

3. Dressed warmly and more warmly than by boiling or by fire.

4. If you have fever or aches go to bed and stay there until you feel better.

5. Always remember that anyone who has a cold is not fit to give you a cold; if anyone else has a cold that you have given them diaphoretic or smallpox, and that you are not fit to give anyone else a cold if you can help it.

It Is Pain Begone.—When neuralgia pains the nerves or limbic gripes the muscles, turn to Dr. Thomas' Electro Oil. Well rubbed in it will still the pain, stop the griping, and cure the fits.

There is nothing like it as a liniment for its curative properties and its power to heal.

A trial of it will establish its worth.

Saskatchewan Farm Loans Act

Approximately two thousand applications for loans aggregating four million dollars have been received.

Rural Planning

And Development

A Few Words on Problems of Vital and Current Interest in Canada

The above report of the commission of investigation deals with the problems of rural planning and development of rural districts and small towns in Canada.

The town planing adviser of the commission, who has made a close study of the problem in the United States, reports that twenty-five per cent of the population in Canada are now engaged in agriculture.

Surveys of town planning in other countries deals comprehensively with the social conditions and tends to secure the proper development and economic use of land for purposes of agriculture, industry, and amusement.

The great injury which land development in Canada suffers is the want of expert business management.

Incidentally, the problems of returned soldiers is discussed with a view to the development of the country.

Having regard to the need for more land for agriculture, the question of land distribution in Canada; to the extent to which production is impeded by the lack of roads, railways, and transportation facilities; and by lack of capital, labour, and markets.

There are five appendices by prominent experts which give an outline of the problems and makes general recommendations over the conditions as presented.

Minard's Liniment Cures Gout in Cows

B4 Potato Yield

A farm at Delcourt, Alberta, took from three-quarters of an acre 300 bushels of potatoes, the weight of which ranged from seven and a half to nine bushels per acre, and harvested out of the 300 bushels at least one hundred bushels of good quality.

Some of the potatoes were selected, and a hat each was selected. Some of the potatoes were on view in the market.

Mr. Minard's Liniment Cures Gout in Cows

When troubled with fall rashes, eczema, or skin disease apply ZEPHORINE.

ZEPHORINE is a powerful antiseptic. It has no mineral salts. It heals faster than any other antiseptic.

Zephorine is a powerful antiseptic.

## The Tragedy of the Sea

Wat Has Brought Greatest Tragedy of Maritime History

We have fed the sea for a thousand years, but never as we are doing now. In the past thirty-eight months a place of quiet sepulture of the dead has come in the form of a colony of shipwrecked sailors. Their graves unmarked except for the name of their vessel, their bones scattered as boys or youths, away from home? The great adventure has become the great tragedy of maritime history.

What has brought about this calamity? The great adventure has become the great tragedy of maritime history.

Wat has brought about this calamity? The great adventure has become the great tragedy of maritime history.

## Live Stock Production

Live Stock Industry in Alberta Has a Wonderful Future

That the live stock outlook in Alberta could hardly be excelled anywhere in the world was pointed out by Mr. Carlyle, late dean of the Oklahoma State College of Agriculture, as expressed in an interview with the Calgary Herald recently.

Stockmen all over the country,

he said, have turned to Peck's

chapters sections for improvement

in breeding, and Alberta was admirably suited for the work.

In fact, it would become a leader

among these lines. He pointed out

that it is the live stock industry

the nearer one goes to the equator

the smaller the losses will come.

The highest losses from

New Mexico north must be looked

for in the cattle business.

The larger the percentage of cattle

sunshine the more profitable it will

be.

The increase of the most potent factors

in favor of the live stock improvement

of the present breeding stock, and he added to the fact that the

Chinese government is requiring

the value of disease-resistant stock to

such an extent that a Canadian had

now been sent to China to inspect

and to advise the Chinese to import

caribou to combat animal

and human diseases lost from

the caribou.

If these losses are to be eliminated,

and therefore must begin at the very

foundation of the industry, namely,

the west, which is the most important

country for the production of

healthy, vigorous stock. The

grass and climate conditions are excellent.

This province is already leading

along these lines, and is being followed

by the fact that the east is drawing

heavily on the stud stocks and

breeding herds.

Mr. Carlyle believes that the west

will be the center of the live stock

industry in the future, for this is where animals with vitality

and power are to be found.

He looks for a wonderful

future in Alberta, both for the live

stock and grain growing industries.

### One Man's Prayer

This Man Believes in the Golden Rule and Explains It

Out in Kansas there is a man named Homer McKee. He wrote a prayer and sent it to the editor of the Board of Health Bulletin. The Bulletin fails to identify Mr. McKee further, but it is evident that his prayer is enough in a way for the prayer speaks for the man. Here it is:

"I pray for my countrymen, a man, an hour, sixteen ounces, one pound, and a half."

Help me, I pray that I can lie down

at night with a clear conscience, without a shadow of guilt, and unburdened by the faces of those whom I have brought pain.

Grant me, I pray, that I may earn my meal ticket on the square, and in doing thereof that I may not stick my nose in the affairs of others long.

I'll stick to the faults of the other fellow, but reveal to me my own.

Keep me young enough to laugh with the children, and to lose myself in their play.

And then, comes the smell of flowers, the taste of old wine, and the crushing of the heart's wheels in the gravel out in front of this place of temporary shelter and the epithet simple.

### Profitable Farming

Successful Operations Carried on at Prudential Farm

Following a vacation of past years, stock will be wintered on the jail farm at Prince Albert, Saskatchewan, again this year, for the first time. At the present time there are on the farm several head of cattle, of which forty are in the calving stage. Others are being gathered up, and they will be fattened for sale in the spring.

Last year the government bought cattle at \$63 a head and sold them to the farmers at \$75. This year the price is \$100 a head. The profit realized was a handsome one, and it is expected that the following seasons' realization will be equally successful, as the market price of cattle in the spring have already been received.

What on this farmland yielded 25 bushels of wheat, 100 bushels of oats, and the grade was specially commanded by the grain inspectors. All the grain was raised on the farm, exceptentially well, and more than 2,500 bushels of potatoes and 1,000 bushels of turnips are stored away in the root cellar.

**Young Canadians Return "Linguists".**

Boys Eager to Learn More of the Language of Their Allies

Young Jack Daniels, a hospital boy, left Canada with his parents, and foreign doctor. The attending doctor was informed, "You want watch come from him?" he asked.

"German give it me," he answered.

A little piqued, the doctor inquired what he wanted. "I want to talk that kind of estonian and affection," he said.

"'E'd 'ow' is the laconic reply, "Toronto Globe."

"The fair defendant will be acquitted, of course!" replied the prosecuting attorney, who had just now mounted the witness stand, and smiled at the jury, pine out of the twelve having been seated just now of the French who never spoke English before mastering their language.

"The fair defendant will be acquited,

of course!" replied the prosecuting attorney, who had just now mounted the witness stand, and smiled at the jury, pine out of the twelve having been seated just now of the French who never spoke English before mastering their language.

## Gain in Saskatchewan Agriculture is Steady

Population Figures Advance 41 Per Cent. During Five Years

According to a preliminary statement of the census statistics of population and agriculture for the five years preceding June 1st, the five years ending June 1st, 1916, represent an additional population of 152,000, or an increase of 41.55 per cent., and a total increase of 1,111,000, or 91 per cent. It is hardly to be expected, however, as the total increase in the previous period of five years, that the percentage of increase can be maintained.

The total population in Saskatchewan has increased during the five years period by the number of farms increased from 1,000 to 1,200, and the acreage of farms increased from 28,643,936 in 1911, to 100,000 holdings, with an acreage of 36,000,000.

The total land of the province is placed at 153,745,000 acres. Of this 38,000,000 acres are held as crown land, and 115,745,000 acres as private land, of a total of 940,000,000 acres, the latter being the area of the prairie crop production. During the five year period the number of farms increased from 1,000 to 1,200, and the acreage of farms increased 28,643,936 in 1911.

The acre of improved land per farm increased from 29 to 28.04. The acreage size of farms increased per farm from 29 to 28.04.

### Local Jottings

Mr and Mrs Angus Watson were visitors to Calgary this week.

Mrs R. A. Anderson went on a visit to her son Rob at High River last week.

The Masons are holding a grand masquerade ball in the Opera House on Friday evening. Prizes will be awarded.

Rev. E. C. Greenstreet, of Whitewood, Sask., will conduct the services in the Anglican Church on Sunday next at 11 a.m. and 7:30 p.m.

Gerald Anderson left this week for Winnipeg, where he will join the Flying Corps.

As a result of their bazaar the Anglican Church Guild have enriched their exchequer to the extent of \$215.00.

The thermometer dropped down to 32 below on Tuesday night.

Several of our citizens are very anxious to know what has become of the Forum this year.

Skating is now in full progress on the Lake.

The Christmas services at the Catholic Church are as follows: First Mass at midnight, 2d Mass at 9:30, 3d Mass at 11.

### Results of Municipality Election

The following are the results of the Rural Municipality elections held on Monday:

Baker C. F., Cypressland 90  
x Gilbert, L. W., Carceland 64  
Green, E. E., S'more 91  
Lawrie, J. P., Namaka 93  
Payne, W. J., Cheddie 68  
Skene, F., Cheddie 74  
Watson Angus, S'more 91

The candidate marked x did not get elected.

### SILVER WEDDING

A number of friends gathered at the home of Mr and Mrs C. Allen on Saturday evening in celebration of the 25th anniversary of their wedding. The evening was spent merrily with bridge and pool. At midnight a dainty lunch was served after which a musical program was rendered. The host and hostess were the recipients of showers of congratulations.

### To The Editor

(An Answer to Mr. Boisavant)

Mr. Editor,—I was not surprised to find in your paper's paper that Mr. Boisavant could not support the Union Government, because he has supported it. He has given his chief support to the U.P.A., cause far below the ideals held by the officials who are responsible for the well being of the Organized Farmers especially after Mr. Wood telegrams to Mr. Creer. Mr. B. complains that the Union Government has conscripted men and not wealth. Does it not follow that Union is doing what has been done? I would refer to Mr. Boisavant's letter in the paper on August when Sir T. White explained the Business War Profits Tax; he gave an instance of a firm whose profits for 1916 were \$1,000,000. The firm paid taxes \$900,000, leaving the firm \$100,000; of course I would say to him that it is hardly to be expected he would leave wisdom at home. Mr. B. continues that the Government has fixed the price of wheat overnight and left the price of implements to soaring. Is it known?

I am sure that the government, like the price of Canadian wheat at the present time, is the price of the grain like that and you would have a difficult time getting a man to meet. It takes brains to run a manufacturing plant and all that gentleman has accomplished in life is to talk.

Now we come to the point of implements. A farmer has to sell to doubt in price and implements to remain stationary, we all know what wheat prices will get quick result by buying provisions under the Alberta Tax Law, every stray animal makes up the bill. The Alberta Gazette and local papers, and also in the Alberta Gazette and other news papers to the Recorder of Brads, Medicine Hat.

that the support their candidates receive at the polls is as good as to vindicate the Western Farmer in the eyes of all. The only great immediate object in view is that he is content to award a small amount of money to the farmers in domestic affairs. The unfortunate thing is that few who are aware of the fact are permanently insure the farmers cause.

When I read that letter I thought how ungrateful Strathmore was to have U.P.A. cause far below the ideals held by the officials who are responsible for the well being of the Organized Farmers especially after Mr. Wood telegrams to Mr. Creer. Mr. B. complains that the Union Government has conscripted men and not wealth. Does it not follow that Union is doing what has been done? I would refer to Mr. Boisavant's letter in the paper on August when Sir T. White explained the Business War Profits Tax; he gave an instance of a firm whose profits for 1916 were \$1,000,000. The firm paid taxes \$900,000, leaving the firm \$100,000; of course I would say to him that it is hardly to be expected he would leave wisdom at home. Mr. B. continues that the Government has fixed the price of wheat overnight and left the price of implements to soaring. Is it known?

I am sure that the government, like the price of Canadian wheat at the present time, is the price of the grain like that and you would have a difficult time getting a man to meet. It takes brains to run a manufacturing plant and all that gentleman has accomplished in life is to talk. Oh, give me a man who would be willing to go to the public with his ideas before he comes and asks me for my support at the polls? What can Mr. Irving tell us he has done except criticize? A man does not have time to every man's idea. I am sure that he has done much more than anything else. The point is, shall Quebec rule Canada? On Dec. 17th Canada will say NO so emphatically that Germany will have a very dependent Canada. Canada is not going to be the first of the Allies to show the white feather.

Yours sincerely,

A SON OF THE SOIL

LOST—One Yearling Red Steer, Calves, 212 lbs., 10 months old. Will be given for recovery of same. JOHN SEAL, Box 128, Strathmore. 10-11 p.m.

### BUY AN IRRIGATED FARM

FROM

THE CANADIAN PACIFIC RAILWAY  
BECAUSE—

Irrigation makes the farmer independent of rainfall, and insures a steady income, regardless of weather every year.

Irrigation makes possible the successful culture of all kinds of crops, giving good returns in dairying and meat raising.

Irrigation insures a farm and close settlement with all the advantages of a densely populated community.

Irrigation in the Canadian Pacific Water Irrigation Block is no longer an experiment. The results of the first year having absolutely demonstrated its success wherever intelligent irrigation is applied.

This is the most liberal offer of irrigated land in Canada on record. For full particulars apply to
